DETAILED ACTION

Response to Amendment

1. The amendment filed on February 13, 2006 has been entered and made of record. Claims 1-3,5-12,14 are pending.

Response to Arguments

2. Applicant's arguments, see Pages 6-8, filed February 13,2006, with respect to Claims 1-3,5-12,14 have been fully considered and are persuasive. The rejection of cited claims has been withdrawn. Examiner has considered the rejection in view of applicant's remarks and as a result has withdrawn the rejection.

Allowable Subject Matter

3. Claims 1-3,5-12,14 are allowed.
4. The following is an examiner's statement of reasons for allowance: Claims 1-3,5-12,14 are allowable over the prior art cited because the Examiner found neither prior art cited in its entirety, nor based on the prior art, found any motivation to combine any of the said prior art which teaches a color output system method of filling output levels of the screen "with a plurality of output levels" (claims 1 and 12), or "multiple ink drops" (claim 14), so that the darker output levels occupy lowest available threshold values of the screen and a highest luminance in the non black area, and the lighter output levels occupy other threshold values of the screen in the non black area adjacent to the darker

output level, respectively as set forth in Claims 1, 12, and 14 including all of the features recited therein.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Drawings

5. The drawings were received on February 13, 2006. These drawings are acceptable.
